

# Water Quality Data Sheet

Record your data & answer questions. Other questions for each test are included in your kit.

Name \_\_\_\_\_

School \_\_\_\_\_

Date \_\_\_\_\_

Weather \_\_\_\_\_

## Temperature

Note if the temperature is recorded in Fahrenheit or Celsius

Air Temperature	
Water Temperature	

## Dissolved Oxygen (DO)

Note if the DO is measured in PPM or Mg/L

Dissolved Oxygen concentration	
--------------------------------	--

## pH

No units for pH, just the number

pH	
----	--

*Review the Temperature, Dissolved Oxygen, and pH Analysis Sheets (included in your kit)*

Are any of your results within a healthy range for Chinook?

Which ones?

Why do you think this area is healthy (or unhealthy) habitat for Chinook salmon?
